

Fast. Easy. Reliable.

Weekly Inbounds from Central and Northern Europe

Established Links

Our solid network of European transportation links makes it easier for you from the beginning. Whether your freight originates in Germany or anywhere else in Central and Northern Europe, we'll handle every detail, delivering it to Hamburg with outstanding reliability, maximum efficiency and minimal transit times.

Maximum Efficiency

The Hamburg Express follows an established route, offloading in Montreal (saving harbor maintenance fees) and completing the trip to our Chicago-area warehouse via rail. Your freight will have guaranteed loading out of Montreal and be on the first transit train to Chicago. It's called Hamburg Express because at only 14 days, it's one of the fastest routes to the Midwest.

Personal Attention through the Last Mile

Like clockwork, your freight arrives to our efficient, customs-bonded warehouse in Wood Dale, Illinois, where our staff carefully unloads and personally inspects your freight. And not only does the Hamburg Express save you Masterloaders and terminal fees, but your cargo will be unloaded and dispatched the same day it arrives.

Weekly Shipping Schedule Hamburg to Chicago
